

PAX GOLD Whitepaper

Project Name: PAX GOLD

Coin Name: PAX GOLD

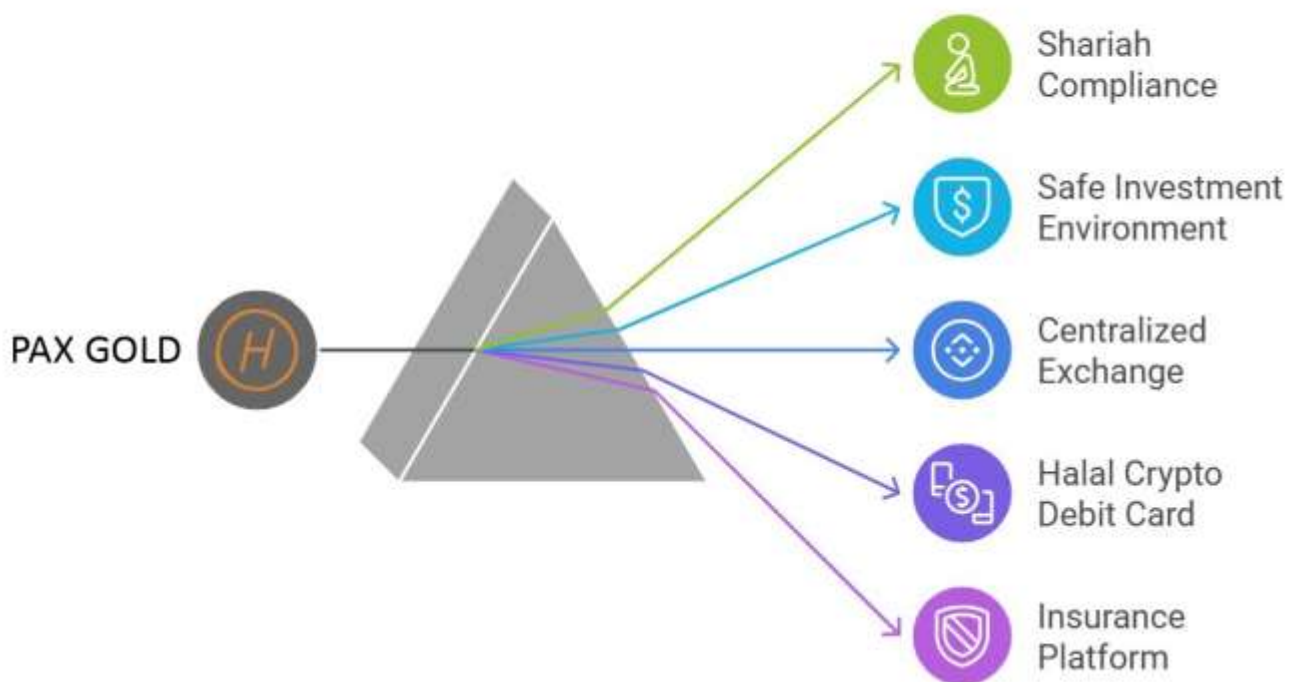

Introduction

PAX GOLD Coin is a specialized cryptocurrency coin that has been developed in full compliance with the principles of Islamic Sharia. Authorized Compliant investments have become challenging for Muslim investors due to interest-based and risky transactions in the modern cryptocurrency market. Addressing this challenge, PAX GOLD Coin is committed to providing investors with a 100% PAX GOLD and interest-free option.

This coin is not only authorized compliant but is designed to provide a safe and transparent investment environment for users. PAX GOLD Coin allows users to trade on a Authorized Compliant centralized crypto exchange with interest-free investment opportunities. It will be accompanied by a PAX GOLD crypto debit card and an insurance platform, which will facilitate investors' daily financial operations and risk-free transactions.

PAX GOLD Coin is not just a coin; this is the beginning of a new era of PAX GOLD investment. This Islamic-based platform aims to establish itself as a safe, secure, and Authorized Compliant investment option for Muslim and savvy investors worldwide.

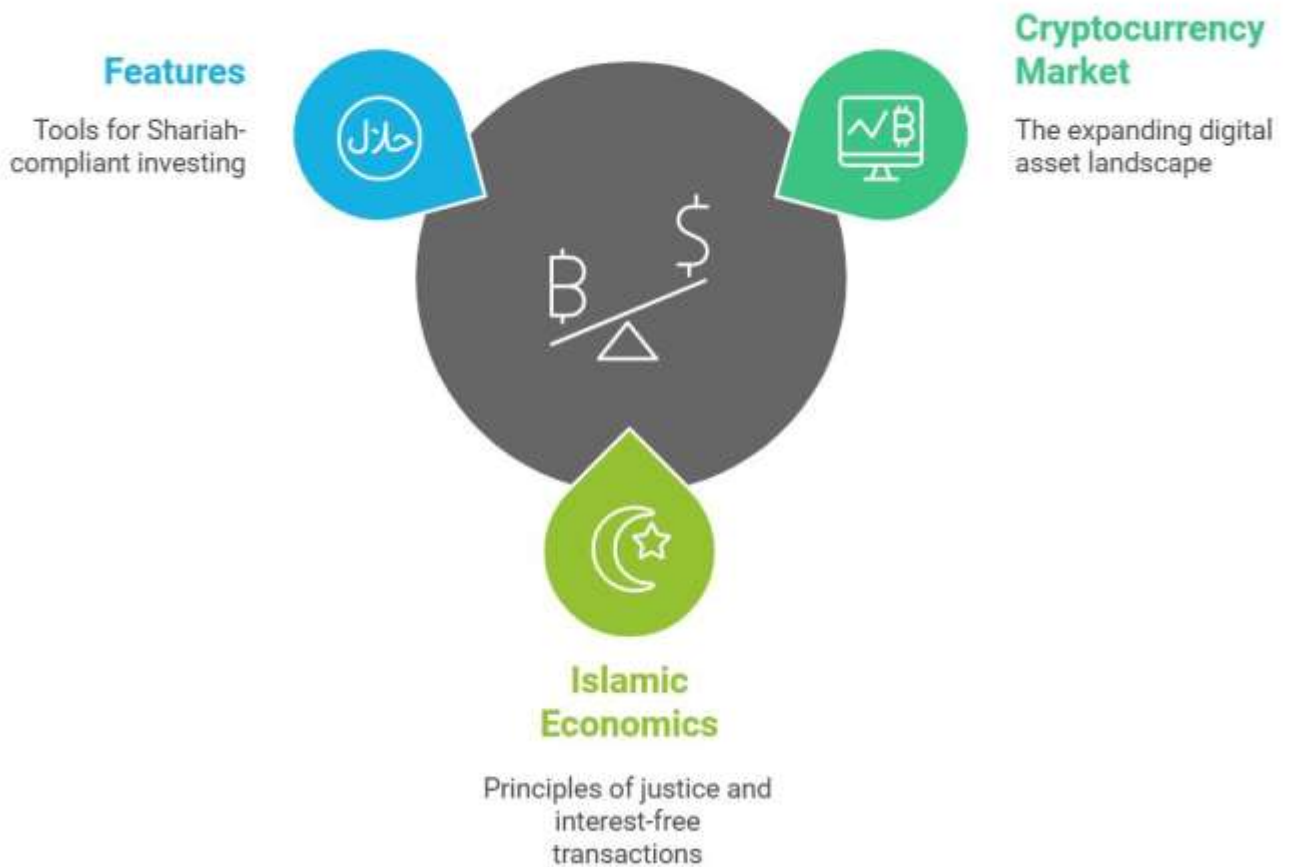

Exploring the Dimensions of Halal Token

Background

PAX GOLD Coin the current cryptocurrency and digital asset market is expanding day by day. Investors see a lot of potential in this, but most crypto platforms operate on the basis of interest, and the investment processes have features that are not compatible with Islamic Sharia. Haram elements like interest, excess risk, and speculative transactions make it difficult for investors following Islamic principles to stay connected to this market. Islamic economics is a system of management that prioritizes justice, Authorized Compliant policies, and interest-free transactions in wealth maximization. The emergence of PAX GOLD Coin to enable Muslim investors to benefit from the digital economy in a Authorized Compliant manner. PAX GOLD Coin is not only an interest-free cryptocurrency coin but will also serve as a platform governed by Islamic principles, providing Authorized Compliant investment and trading opportunities. The platform comes with a Authorized compliant centralized exchange, its own crypto debit card, and insurance facilities. With PAX GOLD Coin, users can safely use their crypto assets for daily needs, which will help in keeping their assets safe and risk-free. This background of PAX GOLD Coin gives us the opportunity to open new horizons of an interest-free and PAX GOLD investment, creating a safe and Authorized Compliant platform for the global Muslim community and other conscious investors.

PAX GOLD Coin Block Chain Technology

Principals and Vision

PAX GOLD Coin aims to create a platform that will become a legal, safe, and profitable digital asset alternative for Muslims and other ethical investors worldwide. PAX GOLD Coin believes that an interest-free investment system based on Islamic principles can set a new paradigm in the modern economic system. Through this project, PAX GOLD Coin will help the global Muslim community to become a partner in the digital economy and enable them to use their resources in a safe and PAX GOLD way.

principles

Purpose of PAX GOLD Coin

PAX GOLD Coin aims to create a fully Authorized Compliant, interest-free and secure digital investment platform, which will serve as a credible and profitable alternative for Muslim and conscious investors around the world. The objectives of PAX GOLD Coin are detailed below:

1. **Creation of Authorized Investment Opportunities**

PAX GOLD Coin aims to build a platform where users can invest and trade in a 100% PAX GOLD and interest-free manner. It will be managed in accordance with the principles of Authorized and provide safe and ethical investment opportunities for investors. The main goal of PAX GOLD Coin is to create a Authorized Compliant alternative in the world of cryptocurrencies for Muslim investors.

2. **Safe and transparent investment environment**

PAX GOLD Coin uses block chain technology to protect users' assets and maintain complete transparency. Every transaction will be conducted fairly, which will ensure the protection of investors' assets and strengthen their confidence.

3. **Providing Reliable and Secure CEX Exchange Services**

PAX GOLD Coin's centralized exchange (CEX) platform will provide a lawful, interest-free and fully secure service. Here users can conduct crypto trading in accordance with Islamic principles, which will add reliability to their financial investments and ensure security at every step of the transaction.

4. **Giving Users Financial Freedom**

PAX GOLD Coin will launch a PAX GOLD Crypto Debit Card, which will give users freedom in daily transactions. Using this debit card, users can make online purchases, withdraw money from ATMs, and perform various daily financial activities. It will provide them with modern financial services and facilitate access to cryptocurrency.

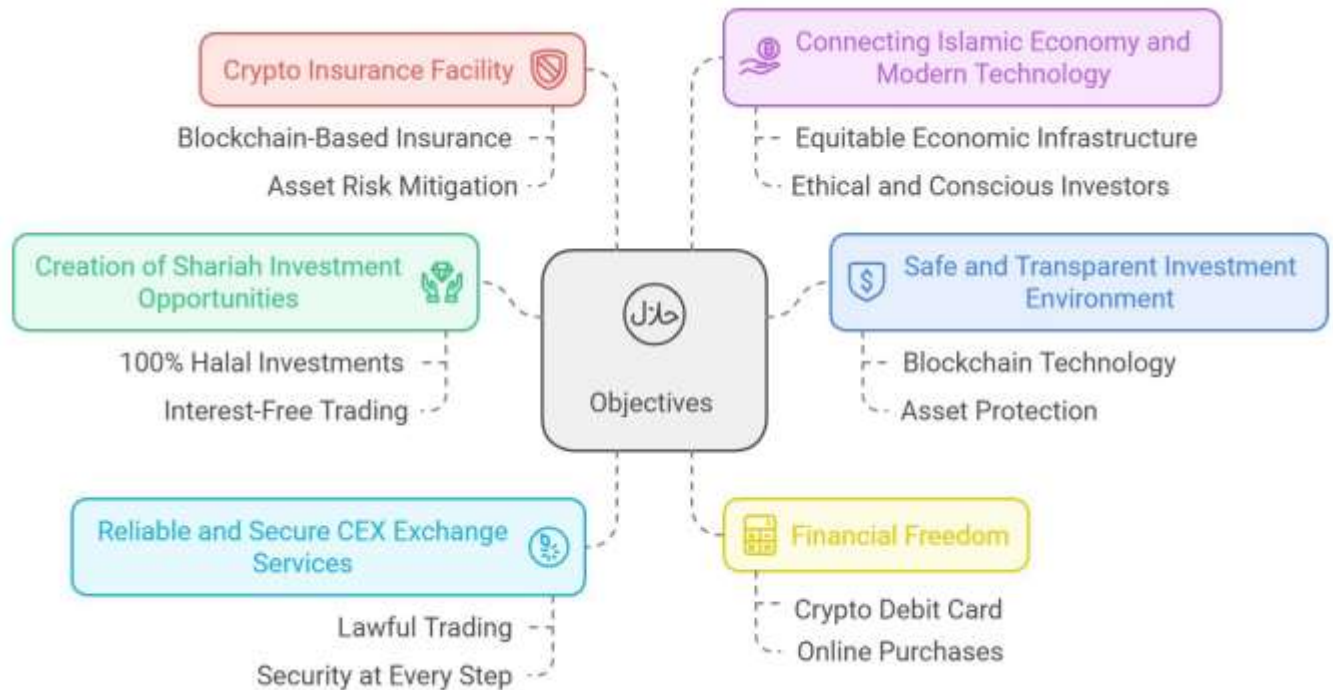

5. **Crypto insurance facility for risk protection**

PAX GOLD Coin will also provide a block chain-based insurance platform to protect users' assets from risk. This insurance platform will protect investors' assets and help mitigate the loss of their assets in the event of a disaster. This arrangement will provide financial protection to investors in times of risk, which will instill confidence in their investments.

6. **Connecting Islamic Economy and Modern Technology Worldwide**

PAX GOLD Coin seeks to create a connection between Islamic economy and modern block chain technology worldwide. It will create an equitable economic infrastructure in the

world of digital assets, establishing itself as a reliable option not only for Muslim investors but for all ethical and conscious investors.

Key Features of PAX GOLD Coins

PAX GOLD Coin is a unique and Authorized Compliant cryptocurrency platform, designed based on security, transparency, and ethics. It is specially designed for Muslim and savvy investors, who are looking for PAX GOLD investment opportunities. Key features of PAX GOLD Coin are as follows:

1. Authorized Compliant and interest-free investment

PAX GOLD Coin is based on fully Authorized Compliant principles and is 100% interest-free. In line with Islamic economic principles, it acts as a coin that provides ethically acceptable investment opportunities for users. The main goal of PAX GOLD Coin is to create a reliable PAX GOLD option for Muslim investors.

2. Safe and Secure Centralized Exchange (CEX) Service

PAX GOLD Coin provides a safe and legal centralized exchange (CEX) service, which allows users to trade in an interest-free and secure way. This exchange ensures maximum security and transparency of transactions to the users so that they can invest reliably.

3. PAX GOLD Crypto Debit Card Service

PAX GOLD Coin's debit card makes daily financial activities easier for users. With this debit card, users can make online purchases, withdraw money from ATMs, and perform other transactions. It provides them with financial freedom through cryptocurrency and ensures modern services in day-to-day transactions.

4. **Block chain-Based Insurance Facility**

PAX GOLD Coin provides a block chain-based insurance service to protect users' assets from risk. This insurance platform protects investors' assets during disasters, helping to mitigate financial losses. PAX GOLD Coin operates this insurance service using the transparency and security benefits of block chain.

5. **Reliable and Transparent Transaction System**

PAX GOLD Coin uses block chain technology to ensure the transparency and security of every transaction. Every transaction is stored on the block chain ledger, which is fully verifiable and secure. This transparent transaction system boosts investor confidence and helps protect assets.

6. **Specialized Authorized Advisory Board**

PAX GOLD Coin's Authorized Advisory Board plays a supportive role in guiding every service in accordance with Islamic principles. The platform is governed on the advice of this board, which ensures investor confidence and assures them that their investments are being managed in a lawful manner.

7. **Combining Islamic Economy and Modern Technology**

PAX GOLD Coin aims to connect the Islamic economic system with the digital age through block chain technology. It serves as a Authorized Compliant investment option for Muslim and other savvy investors around the world, creating a fair and transparent financial infrastructure.

Technical structure of PAX GOLD Coin

PAX GOLD Coin is a modern, secure, and interest-free cryptocurrency that will be based on the Binance Smart Chain (BSC) platform. PAX GOLD Coin's technological framework will ensure fast, cost-effective, and secure transaction facilities for users. Using BSC's secure, transparent, and fast transaction system, PAX GOLD Coin will provide a robust and Authorized Compliant platform to the market.

Coin specification

- Name: **PAX GOLD Coin**

- Symbol: **HLXT**
- Coin Standard: BEP-20
- Total Supply: **50,000,000 HLXT**

Technical specifications

1. **Binance Smart Chain (BSC)**

PAX GOLD Coin will be based on Binance Smart Chain (BSC). BSC is a fast, secure, and cost-effective block chain platform, offering improved transaction speed and lower gas fees. It uses a Proof-of-Stake Authority (PoSA) consensus mechanism, capable of processing thousands of transactions per second. Through this, PAX GOLD Coin users can transact quickly and at low cost.

2. **The BEP-20 Standard**

PAX GOLD Coin will be built on the Binance Smart Chain platform as a BEP-20 coin. BEP20 is the coin standard for BSC, which is similar to ERC-20 but more efficient and cost-effective on the BSC platform. Through BEP-20 coins, PAX GOLD Coin can be easily connected to other BSC-based applications, digital wallets, and payment platforms, which will further expand its usage and services.

3. **Total Supply**

The total supply of PAX GOLD Coin will be limited to 50,000,000 HLXT, which will help manage the market price and demand for the coin. This limited supply will ensure coin value preservation and long-term stability.

4. **Smart Contracts and Security**

PAX GOLD Coin will perform automated and secure transactions through smart contracts. These smart contracts will be designed so that there is no possibility of usury or unethical activities. The smart contract process will create a transparent and reliable transaction environment for users. By using Binance Smart Chain's security protocol, all PAX GOLD Coin transactions will be secure and reliable.

5. **Safety and security measures**

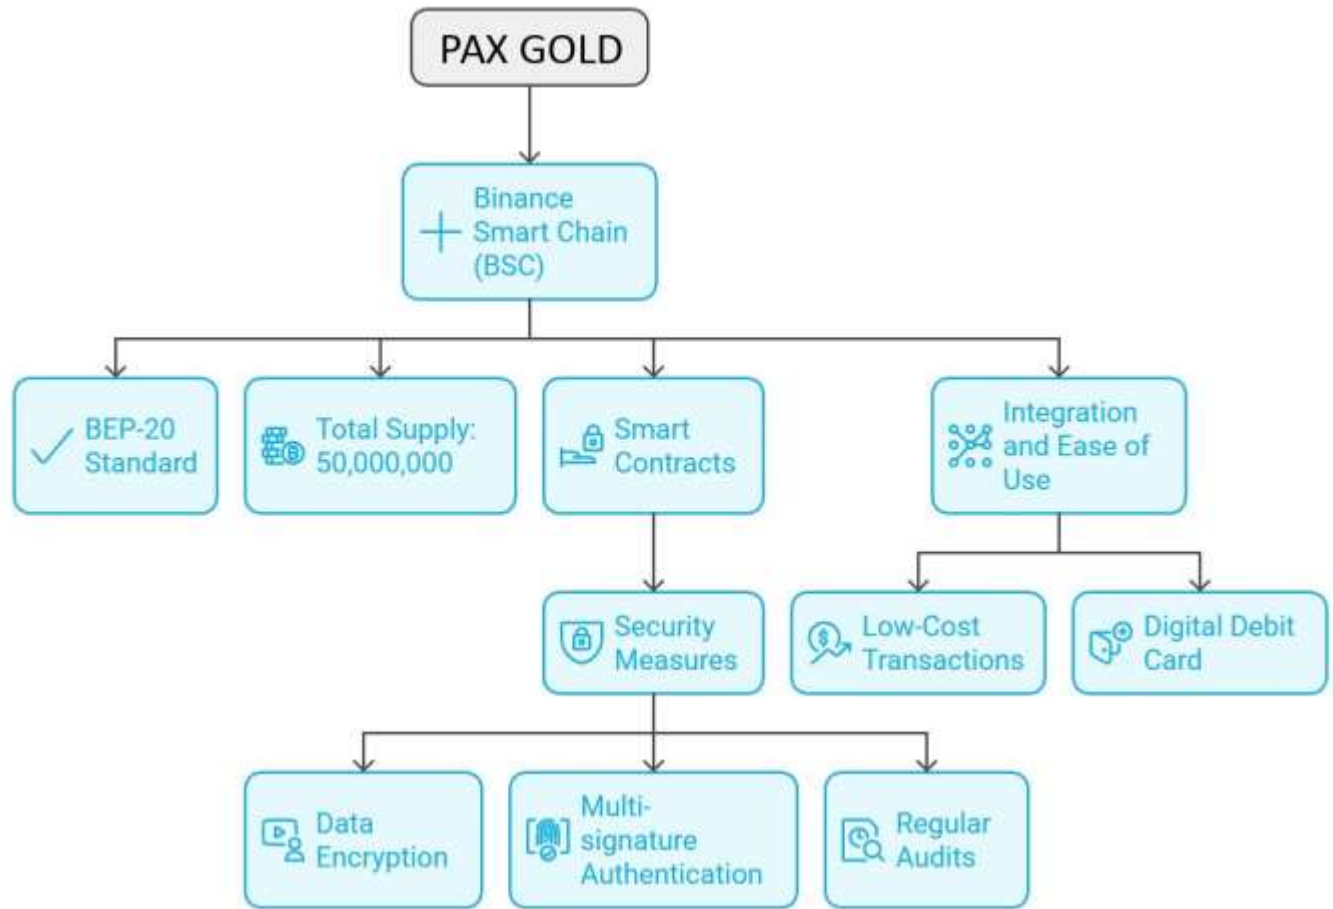

PAX GOLD Coin's security measures will include the latest cybersecurity technology. The BSC platform's security systems, such as data encryption, multi-signature authentication, and DDoS attack prevention systems, will play an important role in ensuring the protection of PAX GOLD Coin. Regular security audits will ensure that the coin and its platform are protected from cyber threats.

6. **Integration and Ease of Use**

PAX GOLD Coin is designed to the BEP-20 standard, which can be easily integrated with other BSC-based applications and platforms. With this integration facility, PAX GOLD Coin users can make free or low-cost transactions and use it through popular DApps or wallets. This will ensure a simple and convenient experience for the users.

7. PAX GOLD Crypto Debit Card and Insurance Service

PAX GOLD Coin's technological framework will include a digital debit card service, which will assist users in their daily financial transactions. It will enable users to withdraw money from ATMs, make online payments, and make purchases at physical stores. In addition, PAX GOLD Coin's block chain based insurance platform will ensure asset protection using smart contracts.

Advantages of PAX GOLD Coin

- **Safety and Security:** All PAX GOLD Coin transactions will be safe and secure with Binance Smart Chain's strong security system.
- **Transparency and Transaction Speed:** The use of the BEP-20 standard will make transactions transparent, fast, and cost-effective.
- **Authorized Compliant Policy:** We develop PAX GOLD Coin in full compliance with Islamic Authorized, offering interest-free and ethically sound investment opportunities.
- **Low Cost Transactions:** Low transaction fees and fast transactions will be ensured through the BSC platform.

- **Easy user access:** PAX GOLD Coin can easily integrate with other BSC-based platforms and wallets.

Key Features Coin Economics

1. Total Supply

The total supply of PAX GOLD Coin is limited to **50,000,000 HLXT**, which will help preserve market value through coin scarcity. This limited supply will eliminate the risk of excess coin supply in the market and keep the value of the coin stable.

2. Distribution of coins (Coin Allocation)

The allocation of coins is determined in such a way that it ensures the use, development, and expansion of coins. Coin Distribution Structure:

Initial Coin Offering (ICO): Half the supply of 15% coins will be allocated for sale to early investors. This will help in the initial fundraising of the project and increase the acceptance of the coin in the market.

Teams and Advisors: 40% of PAX GOLD Coin will be allocated coins for the development team and Authorized Advisory Board. This will ensure recognition of the team's work and their participation in future developments.

Marketing and Partnerships:

A portion of the 20% coin will be used for marketing campaigns, brand development, and creating strategic partnerships.

Staking and Rewards: 15%

of users will be allocated this portion to be rewarded through PAX GOLD Coin staking. This will provide passive income opportunities for coin holders.

Reserve Fund: 10%

Reserve fund to be kept for emergency needs and market volatility. This will ensure the long-term stability of the project.

3. **Diversity of Use Cases**

The use of PAX GOLD Coin is not only limited to investment but is useful in various areas:

Centralized Exchange (CEX) Transactions: PAX GOLD Coin will be used in secure and Authorized Compliant exchange services.

Crypto Debit Card: Can be used for daily transactions, online payments, and ATM withdrawals.

Insurance services: Block chain-based cryptocurrency assets can be insured using PAX GOLD Coin.

Staking facility: Users can earn passive income by holding their coins.

4. **Coin Burn**

To control the supply of coins in the market, the coin burn process will be launched from time to time. This creates a scarcity of the coin, helping to increase its value in the market.

5. **Transaction Fee & Reinvestment**

A portion of PAX GOLD Coin's transaction fee will be used as reinvestment or staking rewards. This will create a self-sustaining and sustainable economic cycle.

6. **Interest-Free and Authorized Compliant Policy**

PAX GOLD Coin's coin economics are fully structured according to Islamic Authorized. It does not contain any interest-based activities or use of illegal resources. It provides an ethical and fair economic platform for PAX GOLD investors. **Profit and impact**

1. **Users benefit**

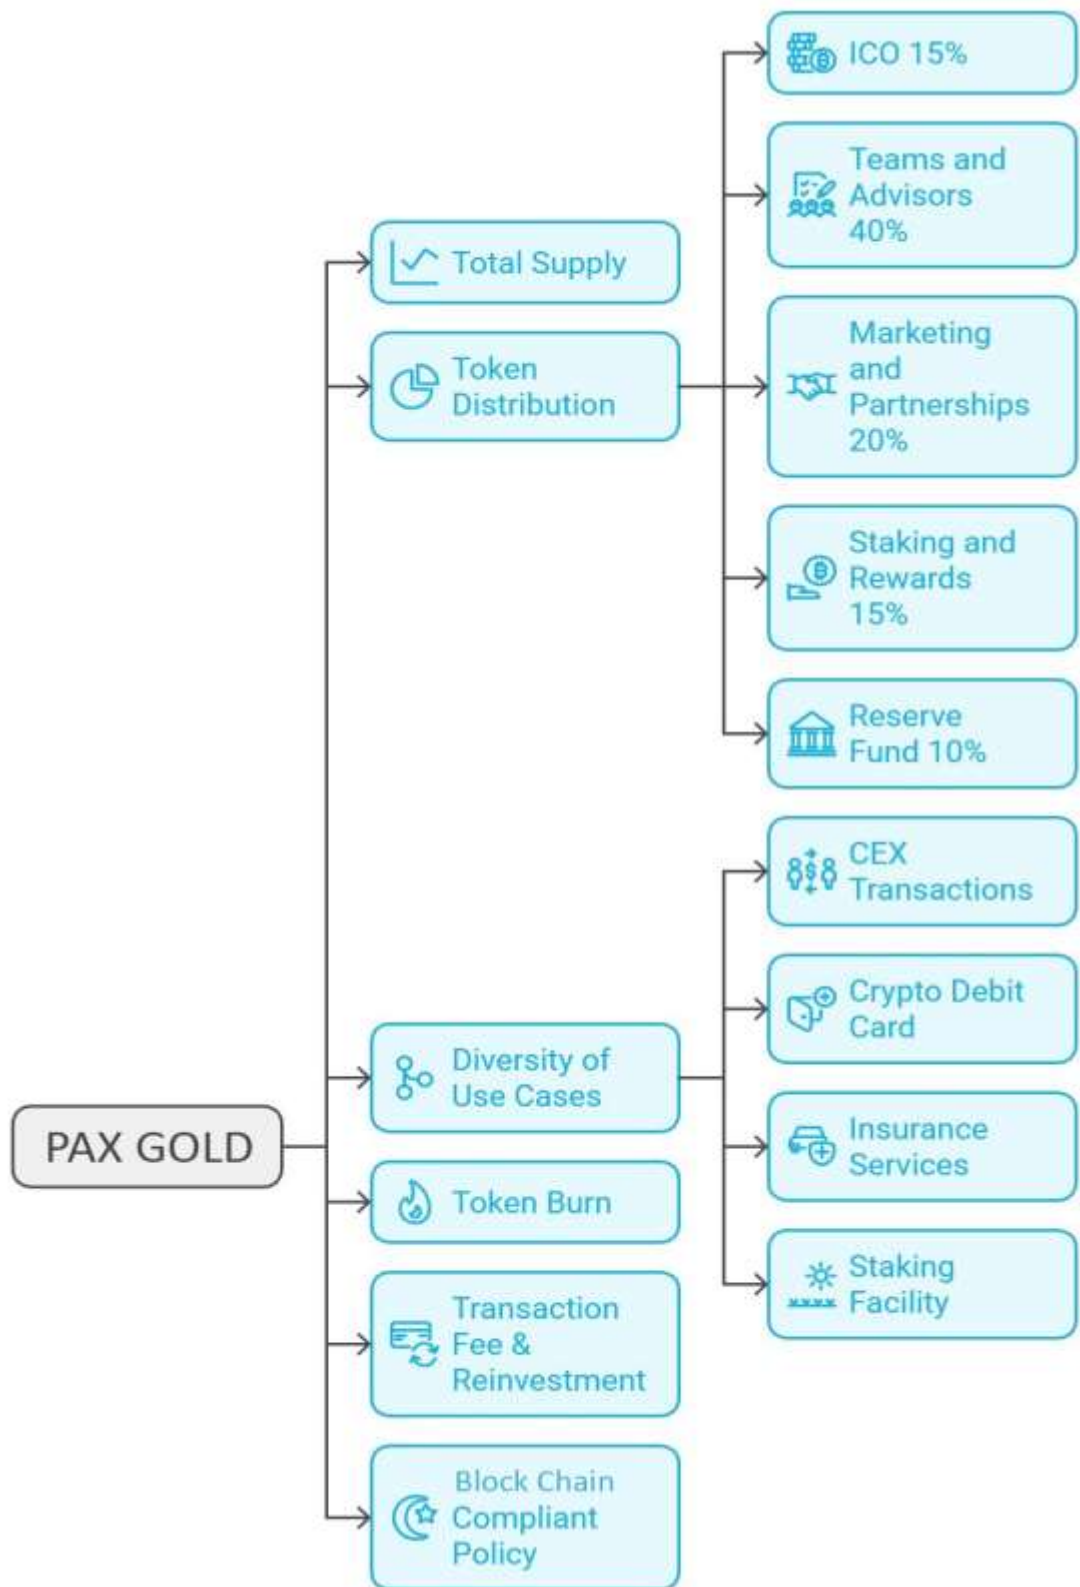

Stable value for coin holders.

Passive income opportunity through staking facility.

Authorized and ethical investment platform.

2. **Market Impact**

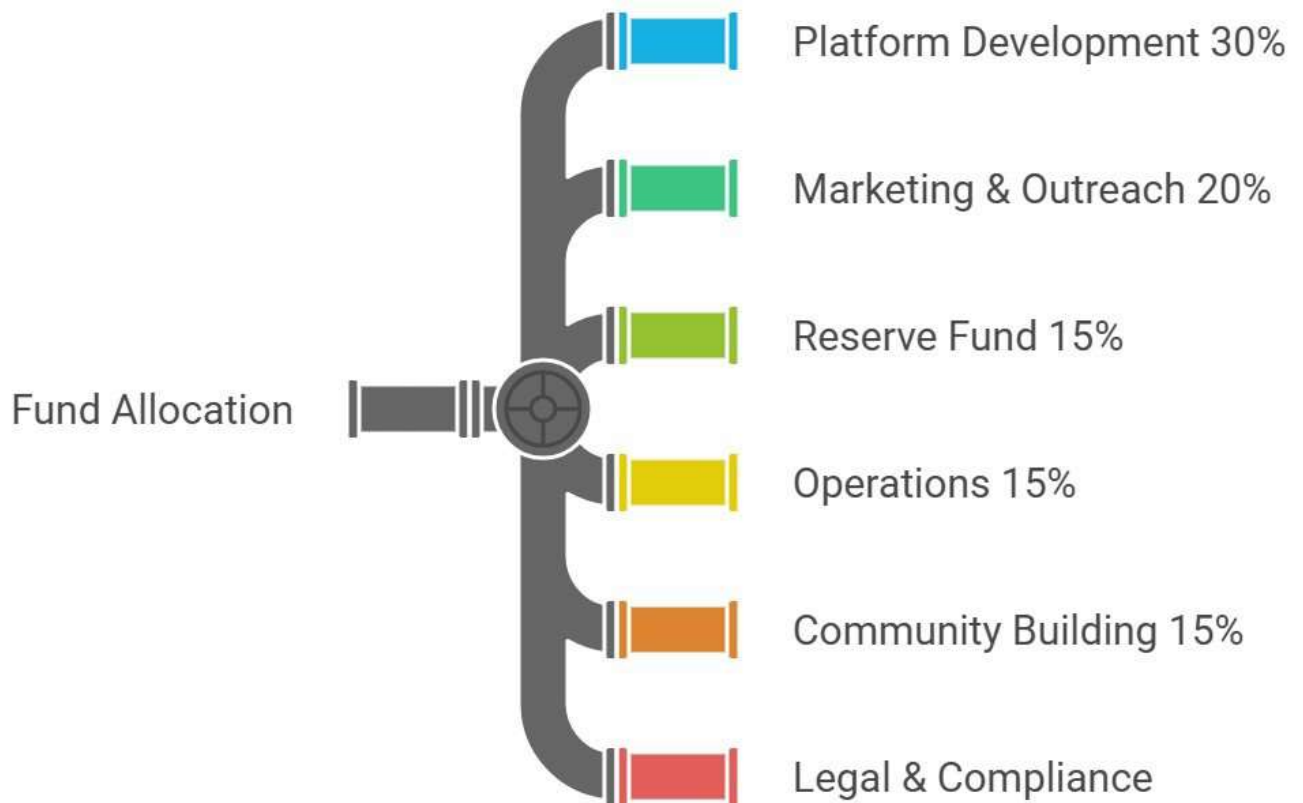

PAX GOLD Coin will usher in a new type of financial system with interest-free cryptocurrency services. It caters to the needs of Islamic finance and will build a sustainable platform for Muslim investors worldwide.

Fund Allocation

PAX GOLD Coin's funding allocation is planned in such a way that it contributes to the long-term success of the project, technological development, and gaining user trust. Each department of fund management will be operated in accordance with Sharia economic principles and will help to fulfill the objectives of the coin.

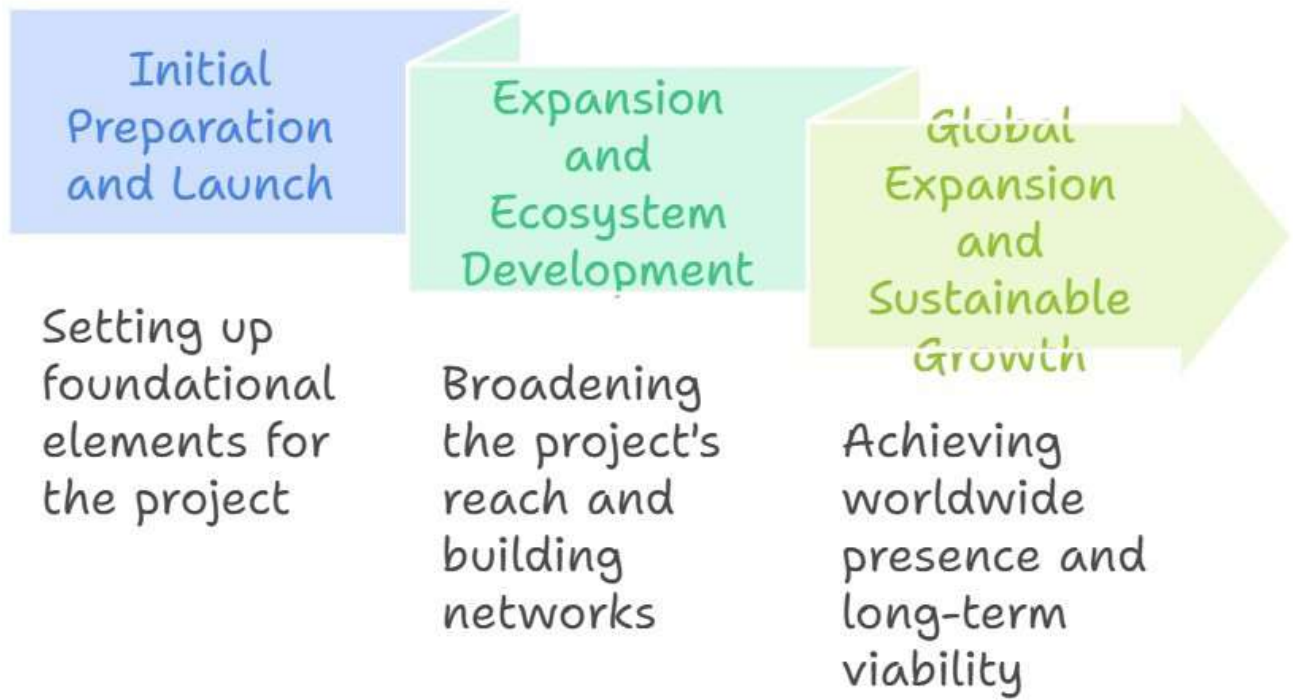

Strategic Fund Allocation

Roadmap

PAX GOLD Coin's roadmap is planned in such a way that the project can continuously develop and expand. Each phase focuses on coin operations, technological advancements, and building relationships with users.

Roadmap Sequence

2024-2025 (Q1 - Q4): Initial preparation launch

- **Q1: Planning and Research**
 - Expert advice on creating a legal coin structure.
 - Market analysis and target audience determination.
 - Coin Contract Development of PAX GOLD Coin on Binance Smart Chain (BSC).
- **Q2: Initial Coin Offering (ICO)**
 - ICO start for early investors.
 - Promotional campaigns and community building activities.
 - Initiation of approval process for cryptocurrency exchanges.
- **Q3: Launch of Centralized Exchange (CEX).**
 - Exchange platform of PAX GOLD Coin launched.
 - Inauguration of safe and legal transaction system.
 - Implementation of customer support system.
- **Q4: Community Building and Market Expansion**
 - Organizing events to increase acceptance of PAX GOLD Coin among users.
 - Global market expansion plans and partnership agreements.

2026 (Q1 - Q4): Expansion and Ecosystem Development

- **Q1: Crypto Debit Card Launch**
 - Debit card enabled for daily transactions and online payments using PAX GOLD Coin.
 - Added ATM withdrawal facility.
- **Q2: Insurance Platform Development**
 - Digital Insurance Platform Launches for Cryptocurrency and Block chain Assets
 - Block chain-based insurance solutions to protect users.
- **Q3: Staking program launched**
 - Staking benefits and passive income opportunities for users.
 - Reward program for coin holders.
- **Q4: Authorized Audit and Development Review**
 - Review the progress of Authorized compliance.
 - Gather feedback from users and implement necessary updates.

PAX GOLD 2026 Initiatives

2026 and Beyond: Global Expansion and Sustainable Growth

- **Global Partnership**

- Partnership with Islamic finance institutions.
- Increasing potential of PAX GOLD Coin for international investors.

- **Multi-chain integration**

- PAX GOLD Coin Ecosystem Expansion to Other Block chain Networks.
- More secure and scalable platform development.

- Organizing local and international events and workshops.
- Increasing awareness about block chain technology and the Sharia economy.

- **Development of new products and services**

- Introduction of Authorized Compliant derivative products and investment tools.
- Enhancing the PAX GOLD Coin Ecosystem

PAX GOLD Ecosystem

Why invest in PAX GOLD Coin

PAX GOLD Coin is not just a cryptocurrency; it is an ethical, interest-free, and Authorized Compliant economic model based on Islamic principles. It offers a unique opportunity for investors, where technology, ethics, and security come together. Some of the reasons for investing in PAX GOLD Coin are analyzed below:

1. Legal and ethical investment

- PAX GOLD Coin is 100% interest-free and complies with Authorized Compliant policies.
- It is an ideal choice for investors who want to invest following the principles of Islamic finance.
- It is regularly audited by the Authorized Advisory Board, which ensures its ethical standards.
-

2. Stable and secure platform

- PAX GOLD Coin is built on Binance Smart Chain (BSC), which is fast, secure, and reduces transaction costs.
- will be operated on a centralized exchange (CEX) platform, ensuring a secure and reliable experience for users.
- Transparency and security are ensured using block chain technology.

3. Scope of multi-purpose use

- PAX GOLD Coin is not only for investment; it is also made for everyday use.
Crypto Debit Card: Facilitates purchases, online payments, and ATM withdrawals using coins.
Insurance Platform: Sharia-compliant insurance services for the protection of crypto and block chain assets.
Staking Advantage: Passive income opportunity for investors.

4. Access to the Global Crypto Market

- PAX GOLD Coin is taking place in the Islamic economy as well as the global crypto market.
- Investors can tap into future opportunities by engaging with the growing crypto market.
- PAX GOLD Coin aims to bridge the gap between cryptocurrency and Islamic finance.

5. Community-friendly initiatives

- PAX GOLD Coin believes in building a strong and supportive community.
- Confidence among investors is built through training, events, and seminars for users.
- Raising awareness and community engagement about Sharia-compliant block chain technology.
-

6. Strong and Transparent Coin Economics

- PAX GOLD Coin's limited supply (50,000,000 **HLXT**) allows investors to hold the coin's value for the long term.
- Proper utilization of coins is ensured through well-planned fund allocation.
- Financial gain opportunities for investors through ICO and staking programs.

7. Possibility of future expansion

- According to PAX GOLD Coin's roadmap, it will continuously add new products and services.
- There are plans to launch multi-chain integration, global partnerships, and new investment products.
- PAX GOLD Coin will position itself as a global leader in the future.

8. ETHICAL AND SOCIAL RESPONSIBILITY

- PAX GOLD Coin is not just a coin; it is an ethical and responsible undertaking.
- Investors can contribute to their financial goals as well as building an interest-free and ethical economy.

PAX GOLD Investment Overview

Legal Compliance

PAX GOLD Coin adheres to strict legal guidelines to operate as an ethical, Authorized Compliant, and international standard project. It aims to manage coins and related services in compliance with local and international legal frameworks.

Key aspects of legal compliance

1. Following Authorized Compliant policies

- PAX GOLD Coin is fully managed in accordance with Authorized Compliant principles.
- An independent **Authorized Advisory Board** regularly reviews project activities and provides certification.
- Adherence to Islamic principles is ensured by abstaining from usury, gambling, and haram activities.
-

2. Compliance with international crypto laws

- **AML (Anti-Money Laundering) and KYC (Know Your Customer):** The customer identity verification process is effective.
Measures in accordance with international standards to prevent money laundering.
- **GDPR (General Data Protection Regulation):**
Ensuring the privacy of users' personal information.

3. Compliance with local legal framework

- Following the cryptocurrency laws of the countries where the PAX GOLD Coin will be operated.
- Ensuring all documents and licenses required for registration and approval.
- Compliance with tax obligations.

4. Ensuring security and transparency

- **Smart Contract Audit:**
Smart contracts built on Binance Smart Chain (BSC) are regularly audited by third parties.
The entire transaction is kept transparent through blockchain technology.
- **Protection of User Funds:**
Secure wallet services and cybersecurity measures.

5. Authorized and Legal Advisory Board

- An expert advisory board provides regular Authorized and legal advice.
- Reviewing the project structure according to the latest laws and Authorized principles related to crypto and block chain. **Future plans for legal compliance**

- Updating the structure of PAX GOLD Coin as new laws and regulations for cryptocurrencies come into effect.
- Ensuring global standards by forming **a global regulatory alliance**.
- Investor training and awareness programs on Authorized and legal compliance.

Conclusion

PAX GOLD Coin is a revolutionary project that combines ethics, technology, and Authorized principles. It sets a new benchmark in the cryptocurrency world, ensuring a safe, interest-free, and ethical platform for investors.

PAX GOLD Coin is not just a coin; it is a complete ecosystem that provides users with financial freedom, responsible investment, and legal finance. With technology development, security, and global expansion, it will become an important part of the future crypto ecosystem.

Our vision is to establish an ethical and integrated economic model that is not only Authorized compliant but also internationally acceptable. PAX GOLD Coin allows investors to achieve their financial goals as well as be part of a fair economic system.

PAX GOLD Coin's mission is to build a sustainable and responsible future by combining fairness and success.

Join us and take part in the journey to shape an ethical and viable cryptocurrency future.
